

CABLE MANAGEMENT

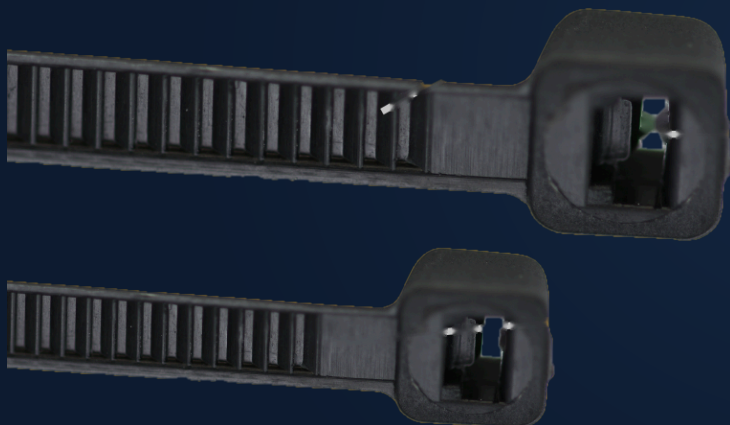

Cable ties

No compromise: high quality cable ties at the best prices

Our versatile range of cable ties can suit almost all of your needs, with a range of different sizes and colours. So much time is wasted going back to site twice because of broken, unreliable cable ties – tough and long lasting, ours install quickly and easily for a one-time fix.

"They're just fixings"

Anyone who has worked in our industry has heard this, but knows the truth – there are glands and fixings, and then there are those designed for the professional who needs to fit and leave, knowing that they won't have to re-visit site to replace the most basic of products...

Positive locking teeth

Closely positioned teeth for perfect adjustment.

Self-locking, one piece

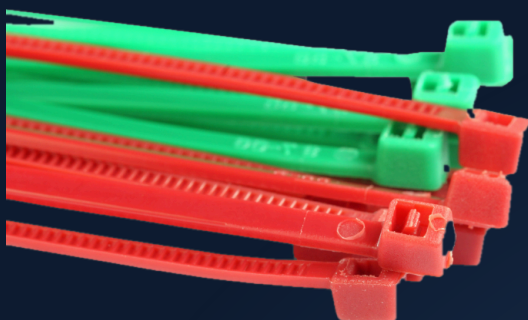

Smooth rounded edges for safer handling.

Time and labour savings

Quick and easy to install, saving time on cable management.

Multiple colour options

Colour-code circuits or organise by function; fluorescent options are great for safety in low-visibility areas.

Different sizes available

Lengths 80–1220mm

Widths 2.5–12.7mm

Fit + forget
