

2FT LED 110V FITTINGS

Contract range

3,200 lm

Wired + tested in UK

Same/next day

Overview

Our contract range offers a cost-effective solution for your lighting needs without compromising on quality. While our contract range have a lower lumen output compared to our premium range, they are optimised to provide similar performance.

Extended life and recyclability!

Key features

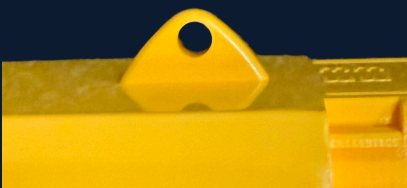

- 3,200 lumens – almost 50% brighter and more efficient than alternatives.
- All fittings are completely wired and fully assembled in the UK for fast installation – simply hang + connect.
- Concealed suspensions that don't get knocked off.
- Minimised packaging, reducing shipping and transport costs, alongside a refurbishment service to make your fitting brand new again.
- Modular components allow for replacement of emergency modules, batteries, drivers, cases and diffusers, extending reusable life.

Savings of £12.15 daily, £85 weekly, and over £4,400 annually

No compromise on quality – and refurbishment on average 70% cheaper than new

Ideal for

- Customers seeking cost-effective lighting solutions.
- Rapid installation with minimal packaging.
- Electricians and contractors looking to optimise their budget for installations.

Built-in eyelets

Suspension eyelets are built into the moulding, eliminating fiddly metal clips.
