

CABLE TERMINATION

# Copper tube cable lugs

## Heavy-duty crimp lugs from 6mm<sup>2</sup> to 300mm<sup>2</sup>

For terminating power cables onto studs and bolts. A bell mouth makes cable entry easy, and an inspection hole confirms the conductor is fully home before you crimp.

### Tin-plated copper

Bright electro-tin finish for corrosion resistance and conductivity.

### Inspection hole

Check the cable is fully inserted before crimping.

### Heavy duty

For terminating onto studs or bolts in boards and switchgear.

58 sizes in stock

Bell mouth entry

Halogen free

## Range
