

Plant and vehicle movements

About 5 minutes · Read it out, then ask the questions at the end.

Why it matters. People being struck by moving vehicles and plant is a major cause of deaths on site. Reversing vehicles are a particular danger.

The hazards

- Reversing vehicles and plant
- Blind spots
- People walking in vehicle routes
- Overturning on slopes and edges

Stay safe

- Keep to marked pedestrian routes
- Never walk behind a reversing vehicle
- Make eye contact with the driver before approaching
- Only trained and authorised people may operate plant
- Use a trained banksman where vehicles reverse
- Wear high-visibility clothing
- Report near misses with vehicles

Ask the team

1. Where do people and vehicles cross on this site?
2. How do you approach a working machine?
3. Who is allowed to drive on site?

The law and guidance

Construction (Design and Management) Regulations 2015; PUWER 1998. HSE HSG150.

General guidance to help you give a toolbox talk. It doesn't replace your site's risk assessments, method statements, permits or training. Check it against your own site rules before you give it.
