

WELDING SOCKET ACCESSORIES

Welding socket **A-frame** stand

Holds welding sockets at a convenient height!

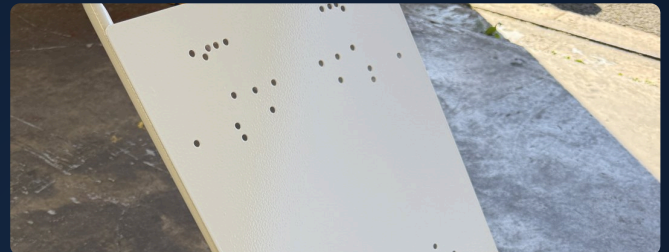

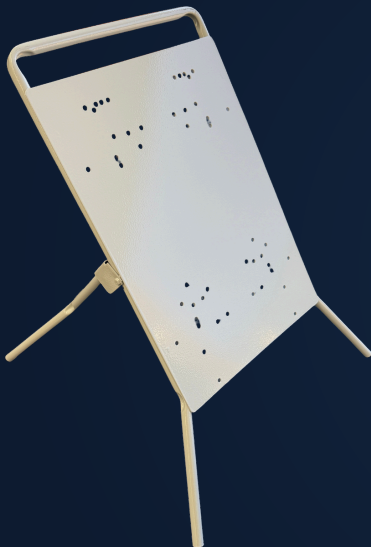

A free-standing steel A-frame that gets your welding sockets up off the floor and exactly where the work is. Bolt your socket boxes to the pre-drilled plate, pick it up by the built-in handle and move it round site as the job moves on.

Multiple mounting points

Collapsible legs

656 × 600mm

Robust rolled steel

Why use a stand?

- Improves safety: sockets off the deck and at a convenient working height
- Great for cable management – leads hang neatly instead of trailing across the floor
- Multiple mounting points on the pre-drilled plate for industrial socket boxes
- Collapsible legs and a built-in carry handle – easily portable round site
- Robust rolled steel construction with wide, splayed legs for stability

Need it in a hurry?

Same or next day nationwide delivery, or instant collection.
